

Product Specifications

Product Code: BEN240
Product Name: BOCAHUB-24 Plus

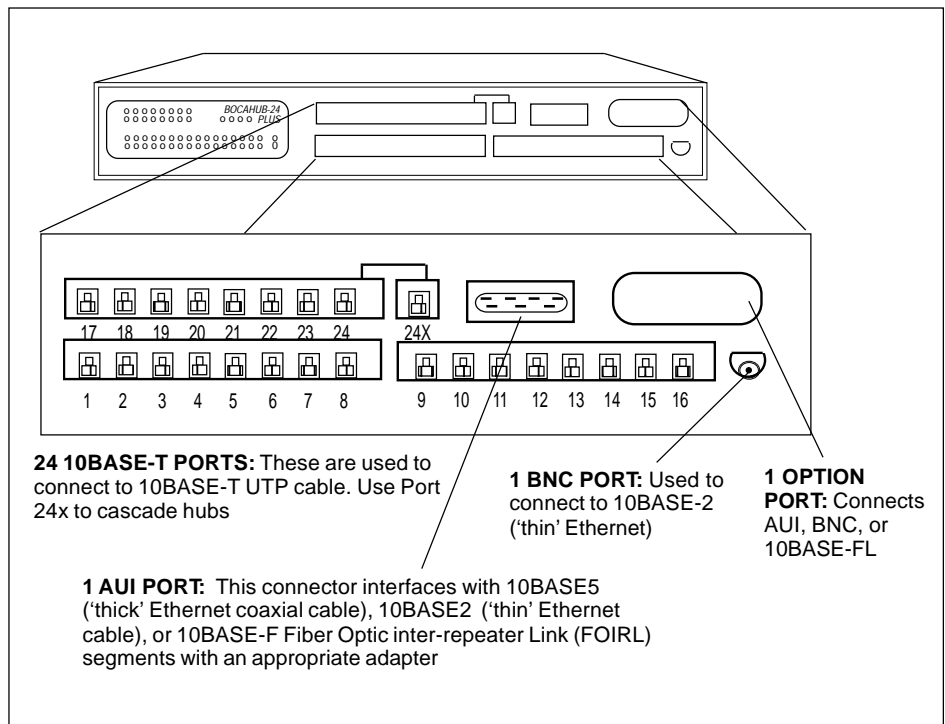

◆ Based on the AMD AM79C981 chip. Uses three chips to provide a total of 24 ports.

◆ Provides 24 RJ-45 ports for connection to nodes cabled with 10BASE-T UTP wiring. Port 24x is configured to cascade hubs.

◆ Provides 1 BNC connector. BNC supports Thin Coax (10BASE2) cabling.

◆ Provides 1 AUI (DB-15, DIX) connector. AUI, with the use of a transceiver, supports 10BASE-T, 10BASE2, Thick Coax (10BASE5) and Fiber Optic (FOIRL) cabling.

◆ Provides a total of 54 LED indicators. 1-power, 1-collision, 24-link activity, 24-partition activity, 1-BNC partition, 1-AUI partition, 1 activity, 1 option.

◆ The BNC port using 10BASE2 cabling supports up to 30 nodes with a maximum cable length of 607'.

◆ Supports up to four hubs between any workstation on the network.

◆ Power: 120/220V AC (connector on rear)

◆ Dimensions: 16.875" x 2.615" x 7"

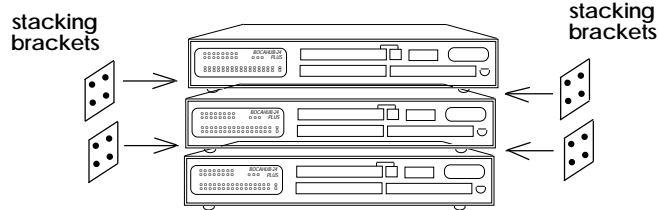

◆ FCC Class A compliance.

◆ Package includes: BEN240, AC power cord, BNC T-connector, 2 stacking brackets, 2 rack-mounting angles, Installation Guide. See reverse for possible configurations

Product Specifications

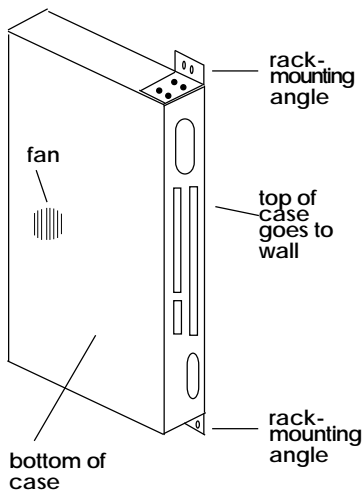

If Stacking Multiple BEN240s

Use one pair of stacking brackets (included) for every BEN240 case you add to the stack. Each bracket comes with four holes (two for the lower case, two for the next case above). Attach the four included screws on one side and four on the other to secure the cases for vertical stacking.

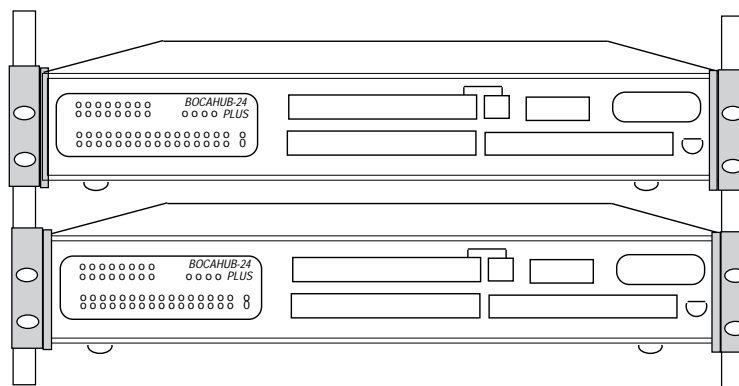

If Wall-Mounting One or More BEN240s

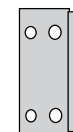

Use one pair of rack-mounting angles (included) for every BEN240 case you mount to the wall. Attach the 1 1/2" angle portion to two sides of the case using the provided screws. Attach the 7/8" angle portion to the wall. This will require 4 additional screws.

If Rack Mounting One or More BEN240s

RACK MOUNTING ANGLE

1 1/2-inch side

7/8-inch side

Use one pair of rack-mounting angles for every BEN240 case you attach to a rack. Attach the 1 1/2" angle portion (included) to two sides of the case using the provided screws. Attach the 7/8" angle portion to attach the assembly to the vertical rack. This will require 4 additional screws.
