Micron NVMe Windows Device driver

Driver Release History

Date	Document Version	Driver Version	Remarks
March 2021	003	2.1.18.0	Issues Fixed: • Built driver with latest certificates • Second time system hibernation failure with 7300 and 9300
November 2020	002	2.1.17.0	This driver is Nvme1.3 Spec compliant Issues Fixed: • NS management command support without reset dynamically • Ns management command support without reset dynamically • Added support for OFA command Features: • Added Host memory Buffer (HMB) support • Dynamically changes Maximum Transfer Length • Added Thunderbolt support • Added SHA2 certificate for secure mode installation
April 2020	001	2.1.15.56	Initial release version This driver is NVMe 1.2 spec compliant Known issues: • Thunderbolt support is not available

Micron NVMe Windows Device driver

Supported Products

The below Micron NVMe drives supports Micron Windows driver

Micron® 2100AI SSD
Micron® 2100AT SSD
Micron® 2200 SSD
Micron® 2210 SSD
Micron® 2300 SSD
Micron® 7100 SSD
Micron® 7300 SSD
Micron® 9100 SSD
Micron® 9200 SSD
Micron® 9300 SSD
Micron® P1 SSD
Micron® P2 SSD
Micron® P5 SSD
