2640 W 225TH ST.  
TORRANCE, CA 90505 (213) 530-7601

Dear Customer:

We're taking this opportunity to announce a new product for your COMPUTEREYES system-the Easy Link Switch, a MUST for your Picture Digitizer .

It makes using this system much more convenient, since the user can view the input video directly on the Monitor before capturing an image.

This fine product will link in one step your MONITOR, COMPUTER & VIDEO SOURCE.

It will end cable switching FOREVER .  
Just plug in the three color coded wires , connect your video source and you will be ready to capture images after images with the snap action of a rocker switch.

You can leave this device permanently attached, does not use any power and will not interfere with the normal use of your computer.

It comes with a one year warranty and instructions.

To order, fill out and mail the order form below to:
