# ZEUS 80® ZEUS 80® ZEUS 80® ZEUS 80® ZEUS 80®

## The ZEUS 80® State-of-the-art Business Computer

The ZEUS 80® is a new, general purpose computer, truly representing latest state-of-the-art advances in Microprocessor technology. The ZEUS 80® utilizes Z80A Microprocessor chip, with both parallel and serial input/output (I/O) interfaces. The entire system was designed as a stand-alone computer to be used to process a business function, including WORD PROCESSING, INVENTORY CONTROL, PAYROLL AND GENERAL ACCOUNTING ETC.

### Video Display

The CRT displays a full upper and lower case character set on a sharp 7x9 dot matrix, with full 24 line by 80 character screen. The 12" soft green phosphor screen, together with the hooded display, (to cut glare and increase privacy), lessens eye fatigue, and below the line character descenders make reading easier. The total effect is designed to maximize operator productivity.

### Standard Operating System

The CP/M\* operating system provides the most flexible applications packages from a wide variety of specialist software houses. Packages include complete general ledger and accounting, scientific and business uses, as well as specific, individually written programs. In addition the System will support languages such as FORTRAN, PASCAL, CBASIC, ALGOL, COBOL, MBASIC and APL.

Modular Unit can be used as a desk top model or neatly placed in a standard filing cabinet drawer.

### Appearance

The complete package is housed in an aesthetically designed unit that will blend with any office environment.

## Switching Power Supply

Brown-out protection is provided by the heavy duty power supply, an important consideration. This unit also protects against over current and over voltage through full regulation on all voltages. The power supply is designed to operate at 110 volts 60 cycles or 230 volts 50 cycles.

## Central Processor

The heart of the **ZEUS 80**<sup>®</sup> is the industry standard Z80 operating at 4 megahertz.

Four S-100 modules handle all system functions ensuring minimum downtime.

## Typewriter Keyboard

Electronic Keyboard With Special Keys and Numeric Keypad

The high quality, Typewriter style keyboard is fully debounced (to ensure that a character is printed only once each time a key is depressed). In addition it provides N-key rollover (each key stroke is recorded however many keys are depressed simultaneously). Continuous depression of a key invokes auto repeat, causing a character to be repeated until the key is released. An 11-key numeric keypad is standard, to assist operator input of numeric data together with 4 programmable special function keys.

## Information Storage

The floppy disc is an extremely low cost, versatile and reliable medium for storing and retrieving

Large Data Storage on Small Floppy Discs for Ease of Access

data in large volumes at exceptionally rapid rates, making it ideal for use in almost all business applications. The two 8" floppy drives incorporated into the **ZEUS 80**<sup>®</sup> are dual sided, double density, providing the system with up to 2.2 megabytes of on-line storage (equivalent to about 1 straight hours of typing at 70 words per minute). Diskettes may be reused and can easily be corrected or updated.

**ZEUS 80**<sup>®</sup> **ZEUS 80**<sup>®</sup> **ZEUS 80**<sup>®</sup> **ZEUS 80**<sup>®</sup> **ZEUS 80**<sup>®</sup>

## Systems Concept

The **ZEUS 80**<sup>®</sup> was designed with future expansion capabilities built in. The System will support a wide

range of additional devices including character printers, line printers and word processing, communications via a telephone connection and hard discs up to

and including 1200 megabyte Memory and I/O capabilities may also be expanded and additional functions added using IEEE S-1 BUS compatible expansion boards

## System Features

- Fully Integrated Computer in a Single Cabinet.
- High Speed Z80A Processor
- 24x80 Video Display
- 12" Soft Green Phosphor Screen
- Dual 8" Floppy Disc System
- Double Density/ Dual Sided Diskettes
- Full Upper/Lower Case ASCII Keyboard
- N-Key Rollover
- Auto Repeat (Keyboard)
- 11-Key Numeric Keypad
- Full Cursor Control Keys
- 4 Programmable Keys
- Heavy Duty Power Supply
- RS232C Port
- Centronics<sup>†</sup> Parallel Port
- 64K RAM Memory
- 2K ROM Memory
- IEEE S-100 BUS

## Physical Dimensions

- Weight: . . . . . 55 lbs/25 kg
- Depth: . . . . . 27 inches/67 cm
- Width: . . . . . 24 inches/60 cm
- Height: . . . . . 13 inches/33 cm

**ZEUS 80<sup>®</sup> ZEUS 80<sup>®</sup> ZEUS 80<sup>®</sup> ZEUS 80<sup>®</sup> ZEUS 80<sup>®</sup>**

## Environment

- Standard Office

## Electrical Requirements

- 60 Hz; 115 VAC, 10% of nominal
- 50 Hz; 230 VAC, 10% of nominal
- 150 watts nominal

## CPU Characteristics

- Z80A Processor
- IEEE S-100 BUS
- 158 Instruction Set
- Interrupts
  - Maskable
  - Non-Maskable
  - Fully vectored

## Memory Characteristics

- Expandable in 16K Pages
- Transparent Refresh
- Access Time 200 ns

## Serial Communications

- Asynchronous
- RS232C
- 75-19200 Baud Rates:

## Parallel Interface

- Centronics<sup>†</sup> Protocol

## Keyboard

- 64 Key Standard
- 4 Additional Special Keys
- N-Key Rollover
- Fully Debounced
- Auto Repeat
- 11 Key Numeric Pad
- Full Cursor Keys

## Physical Characteristics

- Desk top design

## Disc Storage Characteristics

- Dual 8" Floppy Disc System
- Dual-sided, Double Density Disc
- IBM 3740 Format Compatible
- Soft Sectors
- Rotational Speed 360 rpm
- Transfer Rate 500 kbps.
- Latency 83 ms, average
- Access Time 91 ms, average
- MTBF 6000 Power-on Hrs.

## CRT

- 12" P31 Phosphor
- 1920 Char. Display
- 7x9 Dot Matrix
- True Char. Descenders
- Special Attributes
  - Blinking
  - Reverse
  - Underline
  - Intensified
  - Combinations of Above
